Gary Bush is registered to practice before the US Patent and Trademark Office and focuses his practice on patent and trademark prosecution and litigation. For five years, he was in-house patent counsel for Schlumberger Well Services in Houston. He spent 17 years with the patent law firm of Bush, Riddle and Jackson and served as patent counsel for several large oilfield technology service companies. Gary has extensive experience in technologies of tubular connections, downhole logging, seismic processing, seismic graphics systems, mooring systems for offshore vessels, software systems, medical devices, subsea oilfield equipment, drilling with casing, running casing, managed pressure drilling, and various mechanical and electrical devices.
