

Straight Talk Appearances

23rd NREL Industry Growth Forum

October 19, 2010

Denver Marriott City Center, Denver, Colorado

For 15 years the NREL Industry Growth Forum has provided a relationship platform for the clean energy corporate development. The companies that have pitched at Forums 16 through 21 have successfully raised nearly \$2.5 billion in growth financing (source: New Energy Finance) and created over 3,000 US jobs (source: Hoovers). This year, we are proud to say that we are sponsors of this event. In addition, Alan Bickerstaff, a partner from the Austin office, is leading a panel on Innovative Financing.
