French

Dan's practice focuses on general business transactions with an emphasis on wind/alternative energy, oil and gas research, as well as international real estate within the energy spectrum. His experience includes due diligence, negotiating and preparing documentation for energy infrastructure related agreements, including those covering construction, operation and maintenance, equipment supply and reserve-based oil and gas exploration and production loans. Dan has also represented clients in negotiating and preparing leases and easements for wind energy projects.

REPRESENTATIVE EXPERIENCE

- Negotiation of project agreements and real estate documents for 101 MW wind generating facility in Texas
- Negotiation of project agreements for 283 MW wind generating facility in Texas
- Negotiation of real estate documents for 150 MW wind generating facility in Texas
- Negotiation of supply agreement for over 700 MWs of wind turbines
