Andrews Kurth Kenyon DMCC

For more than a century, Andrews Kurth has been a leading provider of legal services to the energy industry, including oilfield services, exploration and development, LNG, renewable energy and conventional power projects. Andrews Kurth opened the Dubai office in 2013 to better serve the global needs of our clients, and to continue to expand our capabilities and worldwide reach.

Dubai is the principal hub for advising our clients in the following regions:

- Middle East
- Africa
- South Asia
- Commonwealth of Independent States / FSU

Andrews Kurth offers each client the benefit of our regional focus and global prominence in energy and infrastructure projects. Our team has worked on assignments throughout the Middle East, Africa and South Asia, including in the United Arab Emirates, Egypt, Saudi Arabia, Iraq, Oman, Kuwait, Qatar, Pakistan, Nigeria, and Tanzania.

The Dubai legal team has acted for a diverse range of clients including government authorities, exploration and production companies, energy services companies, equity funds, and companies with advanced technology and know-how.

We use our market knowledge and best-practice approach to advise clients on project development and structuring, transactional documentation and in relation to their business expansion in the region.

Andrews Kurth Kenyon DMCC is registered and licensed as a Free Zone company under the rules and regulations of DMCCA.
